Tickets Are to Be Issued and Every Citizen in El Paso Is to Be Asked to Buy One-It Will Be Good For a Round Trip and Admission to the Ostrich Farm When Line Is Constructed.

Every El Pasoan is to be given a chance to subscribe to the valley interurban line. It is to be made a popular affair. The committee in charge of raising the honus of \$60,000 has decided to print tickets good for a round trip to lasets over the new line and for admission into the astrick farm. These tickets are to be sold at \$1 each and every citizen is to be asked to buy as many as he feels he can. Women and children will also be asked to buy if they wish to help.

It is to be a popular movement in which every person in El Paso who thinks the line will be worth a dollar to him or to her, may help by putting the dollar or its multiple into the fund. The committee is confident that it can thus easily raise the money; its members feel that everybody will be willing to help at least to the extent of from one to five dollars, and this novel plan of raising the money without making the business men and property owners pay it all, has thus been decided upon. The tickets will be printed at once and will be on sale by the beginning of next week,

Regardless of the value of the interurban to the city, the committee feels that the ride will be worth the dollar to every ticket purchaser when the line is completed. Hany El Pasonns have never been to Yaleta, many have never seen an ostrick, many know nothing of the valley or its wonderful possibilities. To these, the ride on the interurban and the visit to the ostrich farm will be worth the dollar. Hesides, the dollar will help to hulld
